How Every Day Life is Seen in New York.

New York, March 2.—I have been sitting at my window for the last hour, which fronts Broadway, watching the endless throng of people move up and down the street. Among them can be seen every specimen of humanity, from the rich millionaire with his wife down to the poor fruit vender and his wife, all seemingly bent on some purpose as they hurry by each other. Then you see the stylish young man with his little dog and the stylish little man with his big dog. But next in line is the fashionable young lady led by her large dog, and the matronly old lady led by her pug. The idea at once is formed that these people so infatuated with dogs have no one to pet and necessarily must give vent in some way to their affections. This being the first pretty day for some time the ladies were out in full force shopping. Some lazily reclining in their coupes drawn by the well matched, nick tailed span, accompanied by driver and footman. To the poor man it seems these people ought to be contented and happy, yet they are not, for they have anxieties equal to the poor.

The famous dry goods establishment of Lord & Thomas is just across the street, and a continuous stream of humanity goes in and out from morn till night in quest of the latest styles. The clicking of the horses' feet, the jingle of the car wheel, the rumble of the dray awakes you in the morning and lulls you to sleep at night. When you consider the fact that there are estimated to be 60,000 vehicles on the streets of New York daily, exclusive of the street cars, some faint idea can be had of the space consumed. The surface cars on Broadway run within 100 yards of each other and are always filled. The men are expected to look out for themselves as a general thing in the rush, but when a lady desires to cross the street a handsome, well dressed policeman steps up beside her and all vehicles are stopped until she is safely over. This assistance comes unsought, and the well equipped force is always on the look-out to see that nobody wants for attention.

New York seems reconciled to the fact that Chicago is to get the World's Fair, provided it is held at all. It does seem as if New York with the inducements offered ought to have been awarded it.

The old Castle Garden that will no longer be the landing point for immigrants will probably be turned back into a summer garden. A good many of your readers doubtless don't know that the place was at one time a fashionable theatre, and it is here Jenny Lind made her first appearance when Castle Garden was under the management of the world renowned showman, P. T. Barnum.

The death of Jno. Jacob Astor, while a millionaire and a man of powerful financial influence, does not seem to in any way effect the general every day routine, and it but proves that though a man may be great yet he is also insignificant. His funeral was unostentatious and only a few carriages containing the immediate friends and relatives followed the remains to the last resting place. This was by request of the family.

Last Sunday night I heard the famous Nelly Bly give a description of her trip around the world. She wore

the same dress in which she made the trip. From appearances she would never impress you that she was possessed of enough determination to make such a trip, and one that not many men would undertake. She is a very pleasant little talker. She is small with a wiry figure, with small face, dark hair and has the appearance of a hard worker. She intends lecturing throughout the country and perhaps you may have an opportunity to hear her.

The World is erecting the finest newspaper building here, and since Nelly Bly's return its circulation has increased 80,000. This great journal under the guidance of Joseph Pulitzer now stands at the head. W. A. W.

TRIGG COUNTY.

ROARING SPRING, March 6th.—The weather is very cold now, with the exception of the Linton pike, which is kept hot by Ernest and Bracie.

Rev. W. E. Mobley failed to fill his appointment on the fourth Sunday, on account of bad weather, but we hope to see him at his next appointment.

Revs. Stubblefield and Collins closed a grand revival at Pee Dee last Sunday, with the success of seven additions.

Miss Ruth Cooper, of Bennettstown, has been visiting Miss Hattie Miller for the past two weeks. We Frankly enjoyed her visit very much.

Misses Minnie Sallee and Sallie Crenshaw have been visiting Clarksville. The clicking of the horses' feet, the jingle of the car wheel, the rumble of the dray awakes you in the morning and lulls you to sleep at night. Gerrymandering.
The Republicans just now are making a great deal of complaint because the Democratic Legislature of Ohio proposes to change the Congressional Districts so as to give the Democratic party a fair representation. The Republicans call it outrageous Gerrymandering without stopping to consider the sins in this particular. The following, however, will give a good idea of it:

In California 116,729 Democratic voters elect two Representatives, while 124,816 Republicans elect four. In Illinois 348,371 Democratic voters elect seven Representatives, while 370,475 Republicans elect thirteen. Average number of voters to the representative: Democratic, 49,769; Republican, 28,498; difference, 21,269.

In Iowa 179,877 Democratic voters elect one Representative, while 211,598 Republicans elect ten. Average number of voters to the Representative: Democratic, 179,877; Republican, 21,136; difference 188,741.

In Kansas 182,904 Republicans have seven Representatives, while 147,617 voters not belonging to that party have no Representative of their political principles.

In Maine 73,724 Republican voters have four Representatives, while 54,516 voters not of that party have no political representation.

In Massachusetts 104,385 Democratic voters elect two Representatives, while 133,892 Republicans elect ten. Average number of voters to the Representative: Democratic 52,192; Republican, 13,389; difference 38,803.

In Michigan 213,499 Democratic voters elect two Representatives, while 236,387 Republicans elect nine. Average number of voters to the Representative: Democratic 106,724; Republican 26,265; difference 80,459.

In Minnesota 142,492 Republican voters have five Representatives while 120,793 voters not of that party have no political representation.

In Nebraska 148,125 Republican voters have three Representatives, while 94,288 voters not of that party have no political representation.

In the great State of New York it takes to elect a Representative: Democrats, 42,389; Republicans, 34,195; difference, 8,194.

In Ohio it is as follows: Democrats, 79,251; Republicans, 26,003; difference, 53,248.

In Pennsylvania it is as follows: Democrats, 68,805; Republicans, 25,052; difference, 43,753.

DO NOT SUFFER ANY LONGER.
Knowing that a cough can be checked in a day, and the first stages of consumption broken in a week, we hereby guarantee Dr. Acker's English Cough Remedy, and will refund the money to all who buy, take it as per directions, and do not find our statement correct.

Jim Grear's Dream.
Jim Grear, who is an honest, well-to-do farmer in Meade county, Ky., says that a short time ago he dreamed the following fearful dream: In the vision of the night, in dreams upon his bed, Jim thought he sickened and died. There was the silence of death and the darkness of the grave, then there was a lurid glare, not unlike that given by our street lamps, and poor Jim found himself in "Hades" and tainted souls fairly beat him back from the open door, and in his fright he addressed his majesty as "Mr. Devil." I half suspect Jim was expecting to be hung up in that "smoke-house" himself, and hence his civility to the master of ceremonies.

Be that as it may, he asked, "Mr. Devil, who are all these?" "Republicans," was the reply. Jim is a staunch Democrat, and he breathed easier. "The Republicans all come here," continued the Prince of the hot poker. By this time Jim was feeling a great heart full of pity for the inverted humanity in the next room, and he ventured to ask, "Why are you tormenting those wretches in that awful manner?" And this was the answer he says he received: "The Republicans are all so green on the tariff and political economy generally that I have to hang them up to dry out before I can burn them."—Louisville Post.

OUR VERY BEST PEOPLE

Great Sioux Reservation Now Open.
The fertile lands in the Great Sioux Indian Reservation, west of the Missouri river, are now open for settlement. The President's proclamation was issued on February 10th, 1890. The natural gateway to the southern part of the reservation is via Chamberlain, South Dakota, the present western terminus of the Chicago, Milwaukee & St. Paul Railway, from that point to the lands beyond, homeseekers must proceed by team. All necessary outfits can be secured at reasonable prices at Chamberlain.

For the convenience of persons who may desire to inspect the new country first-class reduced rate excursion tickets to Chamberlain and return, will be sold from Chicago, Milwaukee and other points on the Chicago, Milwaukee & St. Paul Railway, good to return until October 31st, 1890.

For maps and circulars containing general and detailed information, please apply to the nearest ticket agent, or address A. V. H. CARPENTER, General Passenger Agent, Milwaukee, Wis., or D. C. BRADY, Southern Passenger Agent, Louisville, Ky.

THAT TERRIBLE COUGH.
In the morning, hurried or difficult breathing, raising phlegm, tightness in the chest, quickened pulse, chilliness in the evening or sweats at night, all or any of these things are the first stages of consumption. Dr. Acker's English Cough Remedy will cure these fearful symptoms, and is sold under a positive guarantee by H. B. GARNER, Druggist.

The Trice Real Estate Exchange.
(Fort Worth, Tex. Trade Review.)
It can no longer be doubted that Fort Worth is fast becoming a metropolitan city, when we recognize the existence of such firms as the above. Located in the Board of Trade building is a suite of rooms that would actually vie with oriental splendor, and which are no doubt as handsome as office apartments as any in the state.

Mr. C. E. Trice hit on an excellent idea when he established at Fort Worth the Real Estate Exchange. It is this character of real estate firms that did so much to build up Philadelphia, Chicago and other large cities. Mr. Trice came from Kentucky to this city in 1885, during the great railroad strike. His objective point was Dallas, but touching Fort Worth, he, like thousands of others, became so impressed with the location, outlook, etc., that he was content to remain. This week the Trice Real Estate Exchange sold to a syndicate 8 1/2 acres of land on the South Side for \$100,000, and C. E. Trice, manager, is a hustler on big deals.

His old firm was instrumental in selling the Hurleys and Chamberlains nearly a million dollars' worth of land west of the city.

The above very complimentary notice will be read with interest by the friends of the young gentleman referred to, in this, his old home.

The Population Of Hell.

In round numbers the earth has a population of 1,300,000,000, of whom 300,000,000 are professed Christians, the other 1,000,000,000 being Mohammedans, Buddhists, Jews, pagans and heathen. The whole race was condemned to eternal punishment for the sin of Adam. This was the fall of man, from which there was and is no redemption save through the death of Christ.

Biblical chronology gives the earth a period of about 6,000 years. From Adam's time to Christ was 4,000 years, during which period no human souls were saved. The population then may have averaged 1,000,000,000. Three generations of 3,000,000,000, pass away in each century. Forty centuries, therefore, consigned 120,000,000,000 of men to eternal fire, and for all we know, they are there now. In the 1,900 years which have elapsed since the birth of Christ 57,000,000,000 more of human beings have lived and died. If all the Christians, nominal and real, who have ever lived on the face of the earth have been saved, they would number more than 18,000,000,000. Now, if we deduct this latter number from the grand total of 177,000,000,000, we find 159,000,000,000 of souls who are suffering the torments of hell fire, as against the 18,000,000,000 who have escaped.

But this is not the whole truth. Nobody believes that more than 10 per cent. of the professed Christians are saved. Calvinists themselves say that the elect are few. If this is a fact, heaven contains but 1,800,000,000, against a population in hell of 175,000,000,000.—George A. Schufeldt in the New York Sun.

THE FIRST SYMPTOMS OF DEATH.

Tired feeling, dull headache, pains in various parts of the body, sinking at the pit of the stomach, loss of appetite, feverishness, pimples or sores, are all positive evidence of poisoned blood. No matter how it became poisoned it must be purified to avoid death. Dr. Acker's English Blood Elixir has never failed to remove scrofulous or syphilitic poisons. Sold under a positive guarantee.

Time and Number.
[Boston Courier.]

They stood at the gate in the pale moonlight. He pressed her hand and said, "Good night." And added, "Kate, just one."

"Just one!" she said in assumed surprise. And did not drop her lashes then. And gazed at the bright, love-beaming eyes—"Well, I should say just ten."

"All right!" he cried, with a rapturous look. And drew her to him, and then he took her and could not let her go.

She gasped for breath as she fixed her hat. As she murmured, "You know I didn't mean I—I thought 'twas the time you meant."

We have just been admiring one of the handsomest oil-pictures of "Jacques" Rosses that we have ever seen, and had it been in an art-store we should have known that a good price would be asked for it. But imagine a work of art of such intrinsic value being obtained for nothing! for that is practically the case, as it is a supplement to Demorest's Family Magazine for April. This wonderful publication has on its Easter garb, and it certainly is an attractive one. Each succeeding number appears to grow better and better, until we are forced to wonder what can be done to improve its present high standard of excellence. Published by W. Jennings Demorest, 15 East 14th St., New York. All newsdealers ought to keep this valuable publication, and we suppose they do. It shows the magic power of 20 cents, and the great distance that small amount can be made to go.

Spring Term of the 40th Session
Begins Tuesday, Jan. 21st, 1890.

Best advantages given in English, Ancient Languages, German, French, Book-keeping, Telegraphy, Short-hand, and Typewriting.

The Normal Department—or course for teachers—is equal to that of any school North or South. No young teacher, who has the time, can afford to miss the advantages given during the Spring Term.

The Music Department under the directions of Prof. Reichart, offers to the student advantages seldom equalled.

The Art Department is taught by a lady, who has few equals, and scarcely a superior in her line. She has had years of experience and has taught with great success in some of the best schools South.

Indeed, the faculty is complete and can meet all the practical wants of those seeking more educational advantages.

N. CURNICK, Principal,

PERSONAL GOSSIP.

Mrs. John O. Rust has returned from a visit to Frankfort.

Mr. J. H. Anderson has returned from his business trip to the east.

Miss Bessie Campbell, of Paducah, is visiting her grand-mother, Mrs. Wheeler.

Jo. Frankel and family left for Louisville Wednesday and will be absent some time.

Mrs. E. B. Bassett left for Louisville Wednesday morning. She received a telegram the evening before stating that her father, Mr. E. Stanley Brown, who was confined to his bed with pneumonia, was in a critical condition.

Jno. Q. McGeehe, of Montgomery, will take charge of McGeehe Bros. store at Bellevue to-day, and Sam McGeehe, who has been conducting the store at the latter point for some years, will move to Pembroke to take charge of the Miller stock, recently purchased by McGeehe Bros. of Clarksville.

CREAM OF NEWS.

Too Much Water.

The Illinois Central, which runs through trains from Chicago to New Orleans, on account of the condition of the river at Cairo, was compelled to take its passengers over this road last Wednesday. Three trains passed here on that day.

Mr. P. P. Huffman says he has not been able to run his flouring mills for over two weeks, on account of the river being too high. Mr. Huffman's mills are situated on Little river, about eight miles south of this city.

There is considerable complaint among our farmers about their being delayed in their early spring operations, occasioned by the frequent heavy and continued rains.

Street Superintendent Twyman is not able to do much work, and has to postpone considerable important work until the wet season is over.

The prayer meetings of the different churches were slily attended last Wednesday night on account of heavy showers of rain.

Our merchants report business rather dull since the late heavy rains began to fall the first of the week.

Scarcely anybody except litigants and witnesses comes to town, though Circuit Court is in session.

A large number of cellars, both in the residential and business parts of the city are filled with water.

The compunctionless umbrella fiend has had a fair opportunity for picking up things that didn't belong to him. Gardening, which was begun by many, has been set back a week or two. There is said to be no bottom to the unmacadamized roads in many places.

The umbrella business has been unusually good for the past month.

A New Enterprise.

Mr. Geo. E. Fox, a commission merchant of Evansville, has opened a branch house in this city at Bonte & Wright's warehouse on West Eighth street. He will deal largely in chickens, eggs and produce of all kinds. This is an enterprise that has long been needed in this city and ought to be built up to big proportions.

Mr. Fox, we learn, has made arrangements for shipping produce at reduced rates over the L. & N., and will ship produce in car lots. He asks the people of the whole county to bring their surplus produce to him. He has nearly \$2,000 worth of coops for fowls and everything else necessary for transacting a large business. He will pay spot cash for anything you sell him and our country people generally will be glad to learn that they now have a good market for their fowls, eggs, etc. Mr. Fox will make Hopkinsville his headquarters, and will be glad for the people of Christian and adjoining counties to send him what they have to spare from their farms, no matter how large or small the quantity.

Bill Boon Captured.

Bill Boon, charged with horse stealing, was arrested at Guthrie Tuesday night as he was in the act of boarding a train for the West. Marshall A. B. Jackson and Sheriff Caldwell, of Davidson county, Tenn., made the important arrest. Boon insisted that he was not the man wanted, but made a desperate effort to throw himself under a moving train after having been handcuffed. Three Smith & Wesson revolvers and about \$900 in cash were found upon his person. A reward of \$900 is out for his capture and conviction. The stealing occurred near Adairville, but just over the Tennessee line, several weeks ago.

More About Wallace Embury.

Tuesday's KENTUCKIAN contained an account of Mr. W. E. Embury's late trip to Louisville, in which a question of his sanity was raised. Mr. Embury came home this week and was Tuesday. After the City Bank had closed for the day, he rattled at the door and made such a vigorous attempt to get in that he was arrested by the police. He was released Wednesday under a bond of \$1,000 to keep the peace and left for Howell, where he lives. He says Lucien Jones, President of the City Bank, had him arrested and will lose \$130 by the transaction, as he will refuse to pay a note for that amount held against him by Mr. Jones. Mr. Embury is apparently in a very unbalanced frame of mind.

Mr. Hanna has removed the old foundry building on the corner of Clay and Fourteenth streets to a lot on Eighteenth street. The house, a large frame building, was taken on rollers down Fourteenth, out Virginia and up Eighteenth. The work was done by J. J. Austin and occupied several days.

J. S. Parrish is receiving thanks from his lady friends from all sections, for his hair-drier, which he is now introducing to the trade. It is a model of convenience, simple in construction, and of inestimable value to ladies. Those who know Mr. Parrish are well aware of the fact that he always tries to please the ladies, and in the invention of this hair-drier, he has written his name indelibly upon the memory tablets of the fair sex.-Clarksville Leaf-Chronicle.

As Mr. L. L. Buckner and Dr. G. E. Medley were driving down Main street Tuesday evening their horse became unmanageable, from a broken shaft. The animal started at a furious gait down the street and ran into a carriage which was in the act of turning in front of the Opera House. The carriage was struck broadside and knocked off the front wheels. The body was turned over on its side, with its occupants, a young lady and gentleman, who were about to alight to enter the Opera House. They escaped by coming out through the upper door and fortunately were not injured, though the young lady was badly frightened. They attended the show as if nothing had happened. Mr. Buckner and Dr. Medley were thrown from the buggy, but were not hurt beyond some painful bruises. The vehicles were badly demolished. They were both the property of Mr. Buckner, whose loss will be about \$250 or \$300.

Boy Decapitated.

Bud Ingram, a 14-year-old colored boy, was run over by the cars at Guthrie Tuesday, and his head severed from his body. His hands and arms were also mashed into an almost unrecognizable mass. Ingram had been warned by the railroad men several times not to jump on and off the trains, but refused to obey and was in the act of jumping on a moving car which was being switched, when he fell with the fatal result.

Very few civil cases have been disposed of in the last few days, but the commonwealth docket is being rapidly diminished.

The Standard.

"I regard Hood's Sarsaparilla as having passed above the grade of what are commonly called patent or proprietary medicines," said a well known physician recently. "It is fully entitled to be considered a standard medicine, and has won this position by its undoubted merit and by the many remarkable cures it has effected. For an alternative and tonic it has never been equaled."

DEATHS.

Mrs. Sallie Anderson, mother of Esqr. A. H. Anderson, died at her home, 5 miles east of the city, Wednesday, of heart disease, aged 67 years. Deceased had been sick for more than a year and her death was not unexpected. She was a member of the C. P. Church, in this city.

Increasing Interest.

Notwithstanding the inclement weather the meetings which have been going on at the Christian Church during the week have been well attended and the interest is increasing. Elder C. S. Lucas' sermons have been well received and he is considered one of the most earnest evangelists who have ever filled our pulpits. We are warranted in announcing the continuance of the meetings during the coming week, and even longer. Great benefits are expected to result from the work of Mr. Lucas in our city, for wherever he goes his labor is crowned with success.

A Card.

I desire to inform my friends in Christian county that I have accepted a situation in the grocery department of McGeehe Bros., Clarksville, Tenn. Any orders with which you may favor me shall have my personal attention, and be filled at the lowest possible price. Will appreciate and kindly remember any patronage extended me. Very Respectfully,

JOHN W. RICHARDS.

THE CIGARETTE LAW.

No doubt some of our storekeepers are unaware that the law prohibiting the sale of cigarettes to minors is now in full force. The bill, which was passed in both houses, was promptly signed by the Governor, and is now a law of the land. There have no doubt been many violations, but in most cases it has been done in ignorance. The grand jury, now in session, has taken the matter in hand and will make things lively for somebody. The law assumes (justly) that every man knows what the laws of the State are, and the plea of ignorance of a new law hardly overcomes with the consideration it should. While the use of the cigarette is so injurious to the health of all, especially the young, and the recent law should be rigidly enforced, yet in justice to those who would not knowingly violate it, it is to be hoped that the grand jury will not be unduly exercised in the matter, and at its present sitting direct its attention more particularly to violations in another direction.

The manufacture of cigarettes in this country is of much larger proportions than most people dream of. In fact it has become one of the great industries of this country and of the world. Of course their use is commensurate with their manufacture. The cigar trade is probably fifty per cent. less than it was ten years ago. This is caused by many young men who smoke a great deal and cannot afford to buy many cigars, falling back on the detestable cigarette. The cheapness of cigarettes bring them within the means of every little urchin who can raise a nickel. To gain an idea of the extent of their use here one has only to walk about our streets at night. He will see boys in small squads, whose ages range from six to sixteen years, smoking their cigarettes with all the enjoyment of the man who limits himself to an occasional fine cigar. Telling the boys that they are ruining their health is like casting pearls before swine. They are so addicted to the habit that warnings are of no effect. All parents rejoice to know that our law-makers have taken the matter in hand and enacted a law that if properly enforced will be of incalculable benefit to the rising generation. To aid the law in its salutary effects every parent and guardian should keep a strict watch on his children--to say nothing of not allowing them to be on the streets at night. "When the band begins to play" in front of the Opera House the night of a minstrel performance--or any other show carrying a band--is when the small boy revels in smoke. He can blow smoke higher than the oldest cigar or pipe smoker in town. He can take a big draw and imitate the two smoke-stacks of a steamboat quite fairly. You can almost see the smoke escaping from his eyes. He knows he is injuring his health, but he is in the same condition that men are who are addicted to other bad habits, he is a victim and the expostulations of parents and friends fall upon his ear unheeded. Who is it that cares for our boys that does not want an end put to this evil? It is preached against in the pulpits, the newspapers fight it day after day, and all good people condemn it. It must be put down. Our State law is a good one. It does not allow of cigarettes sale to minors; it prohibits the sale of the material of which they are made to them, and allows no one to give cigarettes to minors, under a penalty of \$50. A fine law, indeed. It could not be amended unless boys were to be fined who might be caught smoking cigarettes. We earnestly hope that the cigarette law will soon be faithfully observed by all dealers, not that we would in the least reduce their sales in carrying on a dishonest legitimate part of their business, but speaking in behalf of our boys, we must say that we would like to see the day when they could no more get their hands on a cigarette than they could get a slice of the moon if it were made of green cheese.

Boys, let the cigar for candy or fruit and you will never regret it.
